AESCULAP® ECONOM CL

PROFESSIONAL CORDLESS CLIPPER

AESCULAP® ECONOM CL (GT824 | GT826)

Aesculap is one of the first companies in the world to market a wireless sheep clipper. Aesculap used their expertise and engineering skills to thoroughly meet the special demands made on batteries when sheep shearing. The new sheep clipper does of course boast the prestigious Aesculap quality down to the last detail.

The electronic controller controls the power flow from battery to machine. When more power is needed, the controller automatically increases the performance and lowers it if necessary. This optimises battery life and ensures the quality of the shearing remains consistently good.

Using a brushless direct current motor (EC motor) has the advantage of less heat development, leading to longer battery service life and thus longer overall service life for the clipper. The lack of carbon brushes therefore provides a practically wear-free drive.

THE ADVANTAGES AT ONE VIEW

- ideal for clipping the tails of sheep or for shearing cattle with wool-like coats
- huge pulling power, like a cable-operated sheep clipper
- high shearing speed, glides perfectly through the coat
- low weight, fatigue-free handling
- electronic push button recessed in the housing means no more accidental switching the machine on or off when handling
- powerful EC motor
- very well balanced
- powerful and long-lasting
- lithium technology so no memory effect
- effortlessly achieves 2700 rpm

TECHNICAL DATA

DRIVE	EC motor, approx. 2,700 strokes/min
GEAR BOX	Spur gear
BATTERY TECHNOLOGY	3500 mAh, lithium-ion
WEIGHT	approx. 1470 g
SOUND PRESSURE LEVEL	approx. 72 dB
RUN TIME	approx. 50 - 70 min
CHARGING TIME	approx. 70 min
SUPPLIED PACKAGE (GT824)	1 Econom CL Machine + 1 charger + Li-ion battery (GT821) + 1 upper blade (GT578) + 1 lower blade (GT588) (3.5 mm) + 1 Aesculap oil (GT604) + 1 handy and solid plastic case The GT826 set contains 2 GT821 Li-ion batteries
