AESCULAP® VEGA

THE RELIABLE PARTNER FOR YOUR VET CLINIC!

AESCULAP® VEGA GT410

The cordless clipper is the ideal product for veterinarians doing small areas such as the back, neck, belly, head and face.

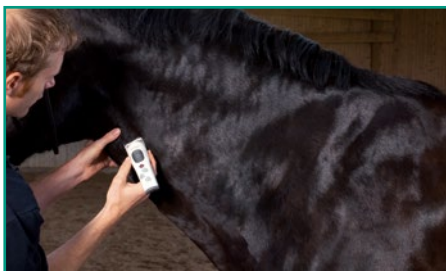

- very good cutting results thanks to clipping head made from a special steel alloy (carbon steel)
- fits the hand perfectly thanks to slim shape
- low weight of just 250 g incl. battery and clipping head
- works very quietly and without vibration
- can also be operated with charging cable connected
- 5 clip-on combs (4, 8, 12, 16, 20 mm)

Ultrasound preparation

Equine venipuncture

CLEANING AND CARE

Removing the blade set
Hold the blade set sideways and push it off the front of the trimmer. When replacing the blade set, insert the two catches into the housing and click the blade set into place.

Cleaning the blade set
Use a brush to carefully clean the blade set and remove remnants of hair.

Oiling the blade set
The blades need lubrication after each cleaning. Apply a drop of oil (GT604) to the middle and both ends.

Note:
Blood, pus and wound secretion can adhere to the blade. Please clean and oil the blade after each use.
